

Bringing Hearts Home

The Road to Southern Alberta's Cardiac Centre of Excellence

HEART DISEASE

#1 CAUSE OF DEATH IN SOUTHERN ALBERTA

Southern Albertan's have a **15.5%** higher risk factor for heart attacks.

Our death rate for diseases of the circulatory system is at **35.2%.**

1300

Patients transported several hundred km's to and from Foothills Hospital each year.

**THAT'S
26.6%
HIGHER
THAN
THE REST
OF THE
PROVINCE**

Your Donations Make a Difference.

Your donations can make our goals a reality by the end of 2027.

That means within a few years, you could have made an incredible impact to the future of our community, a long-lasting achievement that will benefit our grandchildren as much as it benefits us.

This \$30 Million fundraising campaign will help to create Southern Alberta's Cardiac Centre of Excellence which will provide local access to cutting-edge cardiac care.

This includes:

- Upgraded facilities at Chinook Regional Hospital and Medicine Hat Regional Hospital.
- A new Cardiac Catheterization Lab, Electrophysiology Lab, and Echocardiography Labs.
- Advanced diagnostic tools like cardiac MRI and CT scanners.
- Expanded critical care with more Cardiac/ICU beds.

Make Your Donations Count at Tax Time

In Alberta - all donation amounts qualify for charitable tax credits!

When you donate to a registered non-profit organization like the *Chinook Regional Hospital Foundation*, your contributions not only go to help save lives but can also provide financial benefits.

Every dollar donated can result in a significant deduction, making it easier to support causes that **matter** while benefiting at tax time.

Example: If you donate \$2500 to a registered charity in Alberta, your provincial tax credit eligibility could be as much as \$1300.

Ask your financial representative for more information!

Provincial Tax Credit Rates:

Donations \$200 or Less - 75% | Donations Over \$200 - 50%

By donating, you help build a future where southern Albertans can receive top-tier cardiac care close to home, ensuring timely, life-saving treatment.

Including:

- **More Cardiac Diagnostic Support:** Early detection with advanced equipment.
- **More Critical Care Beds:** Treat more patients locally, reducing travel.
- **Improved Cardiac Services:** Faster response to life-threatening conditions.
- **Increased Prevention & Education:** Promote healthier options to reduce heart disease risks.
